PROJECT

WHITEPAPER ETERNAL MEMORY

(EMY)

ICO 2022

ETERNAL MEMORY
PROJECT

: INTRODUCTION

Look at the meteoric technological advancements of the past few years. The craze around metavers, virtual reality, cryptocurrency and NFT's have evolved the possibilities of action to infinity. Why not use this evolution to soothe the souls following the death of their loved ones or friends.

Imagine being able to stay with your loved ones after you die. Give your loved ones the opportunity to interact with you again, to discuss your problems, to comfort you, to tell you stories, to play chess or to say what you didn't have time to say.

A kind of eternal life, a real memory that never ends, Eternal Memory gives you this possibility!

We thank the technological advancements that allow us to put such an opportunity in place, artificial intelligences, virtual reality immersion devices (Occulus) and virtual reality software (Unreal Engine). Without this, we could not allow people to enjoy such an action.

ETERNAL MEMORY
PROJECT

: VISION

Our vision is to allow anyone to still exist in the eyes of others even after death. We want to allow people who are still alive to enjoy their loved one who left too soon, for a few moments or forever.

Our goal is to allow people who are still alive to transfer their consciousness, body envelope and voice into a metaverse in which their loved ones will be able to interact with them in virtual reality in case of death. But our objective does not stop there, indeed, for those who have already had the misfortune to lose someone without this one having had the time to transfer its conscience, body envelope and voice in our metavers, they will have the possibility of recreating it by the means of questionnaire of behavior, photo and videos of being able to recreate the person. Following a long technological development, we will develop a system allowing a creation as close as possible to reality in order to allow an immersive and reassuring experience for people wanting to overcome the sad fate that every human must face.

ETERNAL MEMORY
PROJECT

: COMPETITIVE ADVANTAGE

**We are the only ones on the market to offer such a service.
This leads us to a monopoly of the service!**

We are aware of the ever-increasing technological advancements and we take them into account in order to improve our service. We rely on the winning combination of Oculus, Unreal engine, Reality Capture, Motion Capture, Face Capture and our artificial intelligence.

We know very well that virtual reality offers a revolutionary way to convey emotion, feeling, immersion and communication. At the same time, we know that the most important thing is to bring users to the platform and keep them there. Imagine you want to open a new bank branch. Where would you put it? How will you make your decisions? Will you build it in the middle of the city or in the middle of the desert? Of course, in the city! Why? Because there are no people in the desert. Other virtual worlds don't solve this problem, because they have minimal users and most of them never come back because such a world is not engaging.

ETERNAL MEMORY
PROJECT

Our service allows its users to have different scenarios every time, it's not a loop. But it also allows users to get a single unique experience. Our service is suitable for everything and allows for extended use.

We are targeting a huge user panel, because we are targeting people who want to exist after death, people who want to interact with the deceased, that is, no age limit. And we intend to achieve all this through our strategic partners and mass and viral marketing.

We will connect a growing community of cryptocurrency enthusiasts with a community of virtual reality enthusiasts, we will focus primarily on cryptocurrency users and speculators.

Then we will target the people interested in the services.

ETERNAL MEMORY
PROJECT

A WORLD INCREASINGLY : PRONE TO VIRTUALITY

Today's world is proving that virtuality can fix a lot of situations and allow things we never imagined possible. The interest in virtual reality and cryptocurrency is growing. It will become the daily life of all. Our service will be central in this area, as it taps into an emotional plane that everyone hopes to have. We are offering such a possibility to people for the very near future.

ETERNAL MEMORY
PROJECT

BLOSSOMING MARKET FOR CRYPTO CURRENCY, VIRTUAL : REALITY AND AI

Regarding the cryptocurrency this represents a market of more than 3 trillion dollars, this is an increase since 2014 of about 10 times, with investors interested in speculation, but also in the projects that are hidden in it. It is a market that continues to grow with ever more new members.

Regarding Virtual Reality, the year 2021 marks a real turning point for virtual reality headsets. According to the PwC report, the virtual reality market had a global revenue of US\$1.8 billion in 2020, an increase of 31.7% compared to 2019. By 2025, it is expected to reach \$6.9 billion. Also according to the report, this growth has been driven by the arrival on the market of 2nd generation VR headsets and more specifically the Oculus Quest 2.

ETERNAL MEMORY
PROJECT

Regarding artificial intelligences, the AI services market was estimated to be worth \$19.4 billion in 2020. This represents the fastest growth compared to hardware and software. For 2021, it is expected to grow by 19.3%. Over the next five years, it is expected to enjoy the highest CAGR at 21%.

ETERNAL MEMORY
PROJECT

THE MOTIVATING ECONOMY OF : ETERNAL MEMORY

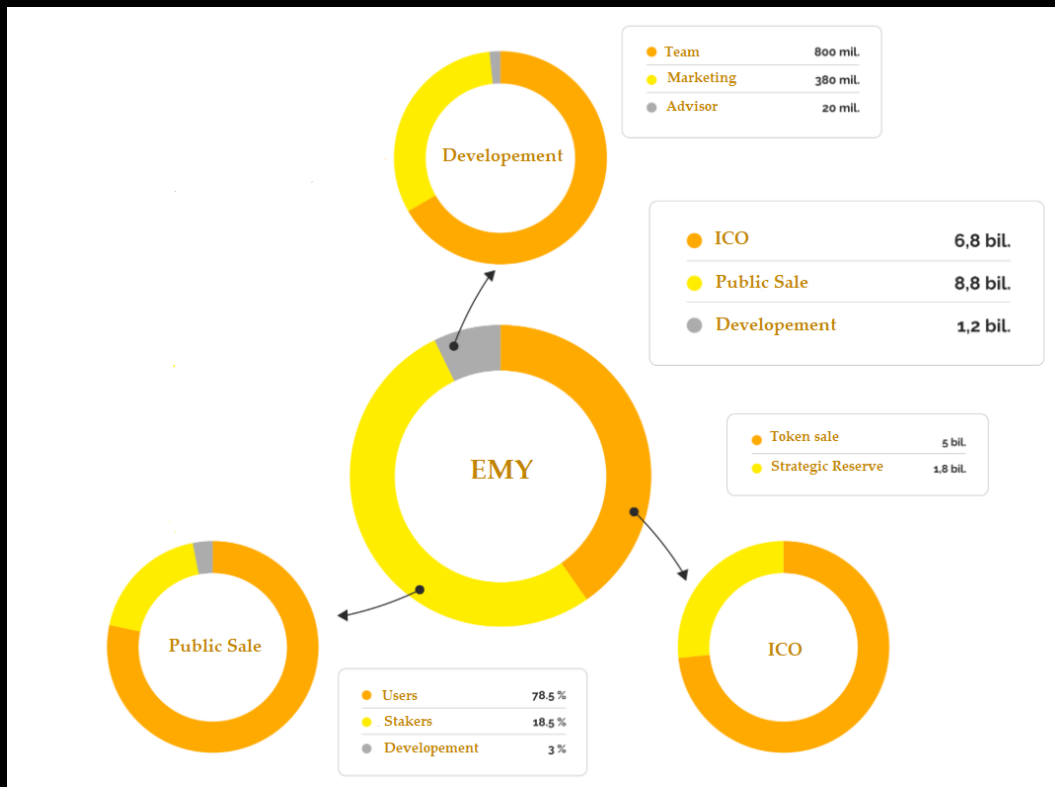

Our whole economy is mathematically designed to be very interesting for everyone, users wanting to integrate their consciousnesses and users wanting to take advantage of this integration, indeed the service will never be interrupted, because immortality does not exist. At home, the main currency is the EMY token.

: THE ETERNAL MEMORY TOKEN

Eternal Memory tokens (hereinafter referred to as EMY) are BSC (Binance Smart Chain) tokens and the primary currency in Eternal Memory Metaverse.

They will be available for purchase on various cryptocurrency exchanges.

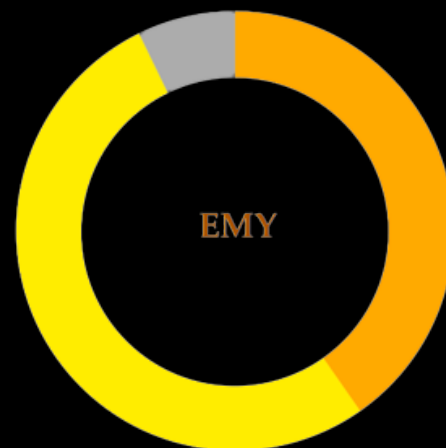

ETERNAL MEMORY
PROJECT

: EMY TOKEN

One part will be for the sale of the ICO and will allow these holders to have the token at a reduced price compared to those who will buy it on the exchanges. The other part will be available for purchase during the listing on the exchanges. And the last part will be reserved for the development aspect of the metavers.

● ICO	6,8 bil.
● Public Sale	8,8 bil.
● Development	1,2 bil.

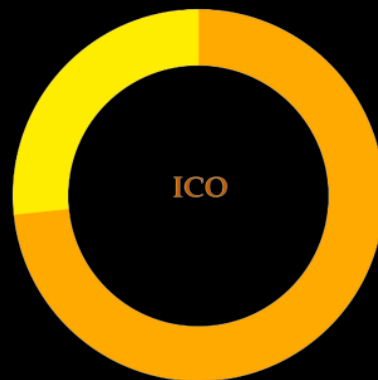

ETERNAL MEMORY
PROJECT

ICO

During the ICO, it will be possible for interested parties to sponsor by promoting our project to others. Each person who invests through their sponsorship link will receive a token reward. A reserve will therefore be provided.

● Token Sale	5 bil.
● Strategic Reserve	1,8 bil.

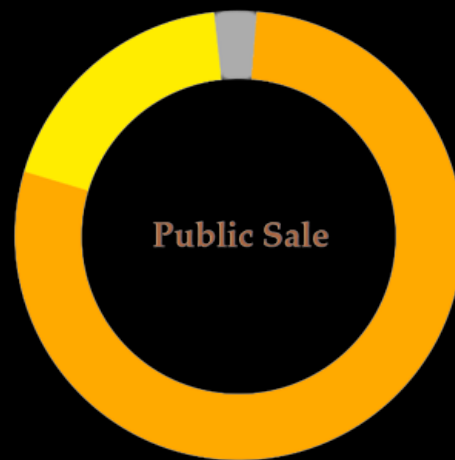

: PUBLIC SALE.

Most of the token is reserved for EMY utility token users, but also for speculation. A percentage will be reserved for stackers. And the last percentage will be used for the continuous development of the metaverse to ensure its optimal efficiency.

● Users	78.5 %
● Stakers	18.5 %
● Development	3 %

: DEVELOPEMENT

A part will be used to pay for the work done by the team to set up the project. Another part will be dedicated to mass marketing to make the project known to investors and the general public. And the last part will be dedicated to the advisors of the different areas.

● Team	800 mil.
● Marketing	380 mil.
● Advisor	20 mil.

ETERNAL MEMORY
PROJECT

: BODY ENVELOPE.

In our service, you buy a body envelope in which you embed your consciousness or a desired consciousness. This body envelope will be worth a certain number of EMY tokens, it will be customizable to the real person's image and can then be used endlessly in the Eternal Memory metaverse.
